SUMMARY

Full-stack engineer with 20+ years of experience building and shipping products across web, mobile, and cloud platforms. Proven ability to lead teams, architect scalable systems, and own projects end-to-end — from early-stage startups to enterprise clients.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Next.js, Node.js, PHP

Databases: MongoDB, MySQL, PostgreSQL (Neon)

Cloud & Infrastructure: AWS (EC2, ELB, RDS, S3, Lambda), Vercel

APIs & Services: Stripe, Mux, ElevenLabs, OpenAI / Vercel AI, GraphQL

EXPERIENCE

Comtac Training — Remote

Sep 2021 – Present

Lead Engineer (Contract)

- Lead engineer on a firefighter training simulation web app built with Next.js (TypeScript), hosted on Vercel with a Neon serverless database.
- Integrated Mux for video delivery, ElevenLabs for real-time speech transcription and text-to-speech, and Vercel AI (OpenAI) to generate realistic, context-aware responses to trainee commands.
- Implemented Stripe for subscription payments and Amazon S3 for file storage and asset management.

eTono (Freelance) — San Jose, CA

2005 – Present

Founder & Independent Consultant

- Deployed horizontally scaling WordPress infrastructure on AWS using ELB, EC2, RDS, OpsWorks, and Chef.
- Programmed an Ethereum smart contract for tokenized voting.
- Provided ongoing Linux server hosting, maintenance, backup, and recovery services.

The Velodea Group — Pasadena, CA

Jan 2008 – Jun 2016

Director of Development

- Led a team of 2 junior engineers and 2 designers across 50+ client projects spanning iOS apps, video encoding, API integrations, and e-commerce.
- Developed the Shell Eco-marathon event platform: multi-role access, technical spec uploading and approval, media credentialing, and travel/accommodations management.
- Built a social media hub aggregating posts from multiple platforms into a single real-time, archivable stream for conferences and events.
- Architected a content targeting algorithm and developed a WordPress plugin for legal approvals and auditing.
- Developed lodging and check-in software using the Zend Framework; built a PCI-compliant e-commerce store in PHP/MySQL.
- Instrumental in transitioning the agency from design-only to a full-service digital product studio.

THQ — Calabasas, CA

Jan 2003 – Mar 2006

First Party Specialist

- Authored the Xbox Live network testing handbook; developed network testing protocols for Microsoft Xbox Live.
- Identified 500+ bugs across 20+ titles using white-box testing methods on mobile, PC, Xbox, PlayStation, and GameCube.
- Embedded with the Pandemic Studios team for the final 6 months of development on Full Spectrum Warrior.

EDUCATION

Hawaii Pacific University — Honolulu, HI

B.S. Computer Science

- Makana Scholarship Recipient

Anthropic Academy — Certifications, 2026
